

MIDDLEBORO PEDIATRICS PATIENT PORTAL

We are now offering our patients a new benefit called “Webview.” Webview will allow you to access parts of the medical chart online through a medically secure, HIPAA-compliant website. Features of the program will enable you to do the following from your home computer:

- Look up laboratory test and radiology results
- Print out completed forms (e.g. physical forms, immunization records, school medication forms)
- Look up growth chart data
- Look up previously scheduled appointment dates
- Look up current and previous prescription information
- E-mail the office for concerns such as referral requests, medication refill requests, billing or insurance questions
- E-mail a physician or nurse practitioner any NON-URGENT medical questions

It is important to remember that e-mail can only be used for non-urgent questions, as we are unable to guarantee that it will be read the same day. **IF YOUR CHILD IS SICK AND YOU REQUIRE AN IMMEDIATE RESPONSE, WE RECOMMEND THAT YOU CALL OUR OFFICE DIRECTLY.**

ENROLLMENT

For children ages birth - 12 years, parent/guardians may either fax or deliver the completed form in person to our office.

For children ages 13 years - 17 years, the form must be completed in person in our office. We require witnessed and signed consent by the adolescent patient to allow a parent or guardian access to Webview. This requirement is due to laws relating to an adolescent’s right to seek certain aspects of medical care confidentially.

Patients age 18 years and older will have their own access to Webview and can either fax or deliver the completed form in person to our office.

To sign up for Webview, click the link below to print out a registration form. You will need one form for each patient.

<REGISTRATION FORM>

If you are already enrolled in Webview, click on the link below to go to the log-in page.
